

MOHAMMED AADHIL K

Full Stack Developer | MERN Stack Specialist

Coimbatore, India | +91-7868955504 | mohammedaadhilkma@gmail.com
github.com/mohammedaadhilkma | linkedin.com/in/mohammed-aadhil-kma-engineer

PROFESSIONAL SUMMARY

Skilled Computer Science student (CGPA: 8.42/10 | 2027 Graduate | No Active Backlogs) specializing in Full Stack Web Development with proficiency in JavaScript, Python, and MERN stack. Demonstrated ability to build scalable applications, collaborate in agile teams, and rapidly adapt to new technologies. Strong communicator with proven multi-tasking capabilities and commitment to cross-skilling opportunities. Reliable team player ready to contribute effectively in fast-paced environments.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, SQL
Frontend: ReactJS, NextJS, HTML5, CSS3, Tailwind CSS, Responsive Design
Backend: NodeJS, ExpressJS, REST APIs, MERN Stack, PHP
Databases: MongoDB, MySQL, PostgreSQL
Tools & Practices: Git, GitHub, VS Code, Postman, OOP, API Design, Agile, Data Structures

EDUCATION

Bachelor of Engineering – Computer Science and Engineering | **Hindusthan Institute of Technology** 2027
Coimbatore, India | CGPA: 8.42/10 | No Active Backlogs

PROFESSIONAL EXPERIENCE

Software Engineering Intern | APPIN Technology, Coimbatore June 2025

- Developed and maintained web modules using Python, HTML, CSS, and JavaScript in collaborative team environment.
- Collaborated with development team to implement features, debug applications, and optimize performance.
- Improved application usability and performance through systematic debugging and optimization techniques.

TECHNICAL PROJECTS

RepoVision – GitHub Repository Analytics Platform | ReactJS, REST APIs 2026

- Engineered full-stack application enabling developers to visualize and analyze GitHub repositories with interactive dashboard functionality and real-time insights.
- Integrated GitHub APIs to display comprehensive repository insights including stars, commits, contributors, and activity metrics with reusable UI components.
- Implemented responsive design across multiple devices ensuring optimal user experience and performance optimization.

SkillGap – AI-Based Skill Development Platform | MERN Stack 2026

- Architected MERN-based platform enabling users to identify skill gaps through interactive assessments and receive personalized learning path recommendations.
- Implemented JWT-based authentication, REST APIs for user profile management, and scalable frontend/backend architecture supporting concurrent users.
- Designed intelligent recommendation algorithm integrating skill assessment data with learning resource matching for enhanced user engagement.

Toonify – AI Image Transformation Application | ReactJS, API Integration 2025

- Developed AI-powered image transformation application converting photographs to cartoon-style outputs using advanced image processing algorithms.
- Optimized user workflow through seamless API integration, automated image-processing pipeline, and responsive interface design.
- Implemented frontend performance enhancements including lazy loading, caching strategies, and mobile-first responsive design principles.

CERTIFICATIONS & SOFT SKILLS

- Certifications: NPTEL Programming in Java | NPTEL Python for Data Science | freeCodeCamp Responsive Web Design | NPTEL Demystifying Networking | NPTEL Organizational Behaviour
- Soft Skills: Excellent Communication (Fluent in English) | Team Collaboration & Interpersonal Relations | Adaptability & Cross-Skilling Readiness | Multi-tasking & Prioritization | Problem-Solving | Reliability & Punctuality | Fast-Paced Environment Proficiency
